THEY HAD VIOLATED THE LIVERY BY-LAW

O. J. Amundsen, C. W. James, J. G. Cumming and Thomas Guy, who are fortunately (or unfortunately) able to sport automobiles, appeared in court on Saturday last before Magistrate Moffatt on charges of having run their autos for hire thus bringing themselves under the category of livery stable keepers and liable for a license. The actual charge was that they were carrying on this business without a license and for such an offence they were liable to punishment under a town by law.

Mr. G. Simpson town clerk was the complainant and Town Solicitor Haslam conducted the prosecution. According to the stories going, the regular livery and dray men refused to pay their license either last year or this, on the grounds that others were competing with them and were not paying a license. In order to get these men to whack up, the summonses were issued and all was excitement as the defendants faced the representative of justice on Saturday last.

O. J. Amundsen was the first called and the solicitor in deference to Mr. Amundsen's standing as a citizen did not ask to have him sworn. He asked Mr. Amundsen if he had ever taken a person named Bright out to Carmangay and accepted pay for it and the defendant after a moment's consideration said that he had. This offence against law and order was committed away back in 1909.

That was all that was required of Mr. Amundsen and Mr. James stepped to the front. He pleaded guilty but explained that he took passengers out as a [illegible] on the request of Mr. Vanhorn who wasn't in a position to give the service.

Mr. Guy came next and he varied the proceedings by pleading not guilty and had Mr. J. R. Watt there to conduct his case. Mr. Guy repudiated the allegation that he is in the livery business. He hasn't the remotest connection with it. Mr. Rioux was called and under the coaching of the town solicitor told of taking a traveller east in Mr. Guy's car and collecting 20 cents a mile each way for it. He also took Dr. Steeves out to Barons.

Dr. Steeves, called, told of hiring Mr. Cummings' car because the livery car was not in running order. The Cumming car broke down and he appealed to Mr. Guy to help him out. That gentleman consented and Mr. Rioux drove the car. Mr. Guy didn't ask for pay but the doctor insisted on paying eight dollars to cover expenses. Mr. Watt urged that isolated instances like this did not constitute a man a livery stable keeper and was not an offence in law.

Mr. Cumming not being on hand when called Constable Morrison stepped into the box to prove service but the ex-alderman escaped the stone pile at Macleod by appearing in the niche of time. He pleaded not guilty and Dr. Steeves was called and told of using Mr. Cummings' car for which ten dollars was charged. Mr. Cumming protested that it was the firm's car not his but the magistrate answered never a word.

This ending the cases decision was reserved until Monday. During the progress of the court the mounted policeman in charge at the time made strenuous objection to the presence of the court unless the magistrate would consent to assess a fee of fifty cents in each case for the use of the room. He had to clean it up and he wasn't going to stand for any such intrusion. The town had a court of its own and they could get out of the place that 'belongs to the king." Mr. Policeman was informed that the court had been opened in the name of the king and he was interrupting a court of justice. He replied that it wasn't being conducted in the name of the king, it was being conducted in the name of Haslam. After a couple of interruptions of this nature Mr. Haslam intimated that he would ask to have the policeman locked up. The magistrate was conciliatory and said while the policeman might be technically correct he thought he might allow the court to finish and any complaint he had to make could be made afterwards. Eventually the redcoated guardian of the law quieted down and the famous cases were finally terminated so far as the barracks were concerned.

On Monday His Worship delivered the following decision.

"In the above cases I believe that the defendant parties did not intentionally use their cars for hire contrary to the by law of the town of Claresholm but according to the evidence submitted in each case I find that the accused parties did accept a money consideration for the use of their respective cars. This is contrary to the provisions of the by-laws of the town. As I stated above I believe from the evidence submitted that the accused parties were ignorant of the meaning of the by law. I therefore adjudge each of the defendant parties, O. J. Amundsen, J. G. Cummings, C. W. James and Thos. Guy., shall pay the costs of the prosecution and furthermore that each of the defendants take out a license as provided by the by law. This is not compulsory but if any of the above parties are found out to be collecting pay for the use of their respective cars without a license they will be taxed the full amount provided for in the by law without the option of procuring a license, except by paying the additional cost of a license, which cost is fixed by the by laws of the town of Claresholm."

T. W. Quayle, as secretary of Foothill Lodge I.O.O.F. was served with a couple of summonses charged with running a theatre without paying the license. On Friday night the license was paid and that defendant didn't have to adorn the dock. A Chinaman summoned for not paying a laundry license also cashed in and the charge was withdrawn.

THE SUGAR INDUSTRY IS A MONEY MAKER

Some idea of the possibilities of the sugar beet industry to a district is gleaned from the following exerpt from a letter received by Mr. T W. Nowlin from his father. The letter is dated April 13th and addressed from Idaho Falls, Idaho. He says, "I was pleased to hear of the action and the interest the people in and around Claresholm are taking in the sugar beet factory. I think it is a good step in the right direction for the advancement of that section of the country. It will enhance the value of property in your district and will bring in more homeseekers and make more consumption for your various products than almost anything else. It will help the country out in many respects and make homes for the ordinary wage earner whereas it is difficult now to keep single men on account of the scarcity of work. I can sincerely say that the farmers should never let the opportunity slip. It creates labor the year round and circulates money that would never stop there and will doubtless result in other industries being started which you would never have thought of. All you boys and probably others have had enough experience in raising beets to know what a sugar factory will do for that country. However you must be careful about the size of your contracts and be sure of your hand labour and get it in a way that you can live up to your contract. As a rule all such companies live up to their contracts for they have no other object in view only to do what they agree. If they lose the confidence of the people they are done for and they realise that fact. As I look at this matter it is a chance in a hundred to get such an institution located in your

T. C. MILNES, Mayor.

Claresholm, Alta. April 13th, 1911.

Sugar Industry A Moneymaker

district. It will help everyone within twenty miles of it though they may never raise a beet. It circulates lots of money therefore I think it stands to the interests of everyone to encourage it. I wish you success for your individual good and for the people at large. I think you have ideal soil for beets and your roads can't be improved on. There will likely be spurs run out from the factory and beets will be handled on the cars. I wish you every success in the enterprise."

Mr. Nowlin writes that they have had a very backward spring in Idaho being very cold. Seeding started here ten days ahead of Idaho.

THIN HAIR ON TOP

If Parisian Sage, the hair grower that O. L. Reinecke guarantees, will not cause hair to grow where the hair is thinning out, nothing on this earth will.

And we say to everybody, you can have your money back if Parisian Sage isn't the best hair grower, hair saver, hair beautifier and dandruff cure on the market to-day.

It stops itching scalp and falling hair and makes hair grow thick and abundantly, or money back, 50 cents for a large bottle. Parisian Sage makes the hair soft and brilliant and promotes growth.

The Pioneer Lumber Co. keeps only well seasoned lumber. When you buy from the Pioneer Co. you are getting what you are paying for.

Claresholm 1 Cayley 0

By a score of one to nil the Claresholm football team triumphed over Cayley on Tuesday afternoon and thus won the opening game of the season. There was a terrific west wind blowing and a heavy rain falling in the foothills which gave the atmosphere a decided chill but that only made the boys move faster and they certainly earned the victory. The Cayley team was much heavier than Claresholm but what the home boys lacked in weight they made up in speed and were much superior to the visitors in running. Claresholm played with the wind in the first half but failed to score. They kept the sphere in Cayley territory most of the time but were lacking in attack and this with the clever work of W. Newton in goal saved the visitors. The fans expected to see Claresholm get a licking when Cayley got the advantage of the strong wind in the second half but the home boys played better against the wind than they did with it and kept the ball travelling. Towards the end of the game Claresholm won the winning goal, Galbraith sending in a splendidly directed shot from center. It was a beauty, being low and swift. There was only five minutes left to play and the visitors were kept on the defence. Claresholm had the advantage of a couple of corner kicks but failed to score altho Joe Griffith nearly did the trick. There wasn't much rough play, there being no penalties but on the whole it was a strenuous game.

The visitors were a fine bunch of fellows and took the reverse in good part. They were good natured, and if the season ends the way it started it will be pleasant indeed. The teams were:—Cayley—W. Newton, Douglas Sloan, J. Hallett, George, Cohen, L. Caspel, C. Douglas, H. Bowen, M. Newton and G. Caspel.

Claresholm—Rowan, Galbraith, W G. Moffatt, Holmes, Wyatt, Eric Moffatt, Robinson, Sutherland, Griffith, Johnston and Proven.

For about ten minutes until the arrival of two of the players Dudley Munro and Martin Lebow played. Charlie James handled the whistle to the satisfaction of all.

Now is the time to get rid of your rheumatism. You will find Chamberlain Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by dealers dealers everywhere.

NO APPETITE?

THIS REMEDY WILL RESTORE IT

If you have no appetite for meals, can't work, can't rest and are annoyed with too frequent urination and a burning, scalding pain in making passages.

If at night you retire, hoping for sleep that either does not come, or is troubled and fitful, you have kidney trouble and need Booth's Kidney Pills, the guaranteed remedy for all kidney and bladder trouble.

Booth's Kidney Pills

A few doses of Booth's Kidney Pills will wake up the sluggish kidneys and regulate the urine. Continued treatment will cure and heal the weakened kidneys and restore the appetite in the natural way. Sold everywhere 50c. box, or postpaid from The R. T. Booth Co. Ltd., Fort Erie, Ont. Free trial sent on application.

To Horsemen and Farmers

Mr. John Robertson announces that his Percheron Stallion Selim Jr. foaled 1906 will stand Friday and Saturday of each week during the season at Vanhorn and Hutchinson's Barn and the remainder of each week at the home farm three miles east of Claresholm on Star Line. This stallion is recommended to farmere desirous of good stock. Terms $12.50 to [illegible]sure. Owner not responsible for accidents etc. For further information call on John Robertson, Box 111 Claresholm.

PROVINCE OF ALBERTA

PUBLIC NOTICE

A Sitting of the District Court will be held at Claresholm on Thursday, May 18th, commencing at 10 a.m.

L. F. Clarry,
Deputy Attorney General.

Dated at Edmonton 5th May 1911.

Ate Unwisely? Sometimes people do, and suffer, because the stomach balks.

NA-DRU-CO DYSPEPSIA TABLETS

relieve the discomfort at once, and help digest the overload. The lover of good things may feel quite safe with a box of NA-DRU-CO Dyspepsia Tablets at hand. 50c. a box. If your druggist has not stocked them yet send 50c. and we will mail them. 34

Murine Eye Remedy Co., Chicago

You can get in on almost any proposition to the extent of contributing your money.

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

If there wasn't any such thing as running for office some people would never know how unpopular they are.

Not Free

"Does your motor car give you much trouble?"

"No," replied Mr. Chuggins. "It is a source of great trouble, but I invariably pay for it. None of it is in the nature of a gift."—Washington Star.

In the treatment of summer complaints, the most effective remedy that can be used is Dr. J. D. Kellogg's Dysentery Cordial. It is a standard preparation, and many people employ it in preference to other preparations. It is a highly concentrated medicine and its sedative and curative qualities are beyond question. It has been a popular medicine for many years and thousands can attest its superior qualities in overcoming dysentery and kindred complaints.

Do you deserve the good opinion of those who think well of you?

Pain and Swelling seldom indicate internal organic trouble. They are usually the result of local cold or inflammation which can be quickly removed by Hamlins Wizard Oil.

One trouble about smiling when everything goes wrong is that a mollycoddle is nearly always imposed upon.

$622 Buys ALL The Material For This Remarkable 5-Room Dwelling

Other Houses, Cottages, Bungalows, Garages, Barns, Stores, Schools, $175.00 Up.

Houses from 2 to 12 rooms, at the wholesale cost of the material. You can see exactly what the completed house looks like and know exactly its entire cost. No extras. No delays. Shipped anywhere, promptly.

Built any other way it would cost you at least $1,000. We save you architect's fees, builders' delays and three or four profits by shipping direct to you from our mills.

Everything Cut to Fit, Ready To Nail—At Mill Prices

We furnish everything—lumber trimmed, fitted and marked, roofing, doors, windows, glass, plaster board, interior trim and finish, hardware, even the nails and paint. Also plans, blue prints and detailed building instructions—all so clear you can build it yourself in a few days.

Build Readi-Cut Way. Saves 50%

Sovereign Houses are not the portable kind, but are built like any other well-constructed, warm, substantial building. Our plan is not an experiment. It will pay you to investigate.

C. P. R. Floral Department

The Canadian Pacific Railway Co.'s floral department is sending out over 100,000 packages of seeds this spring to the agents, sectionmen and employees living on the company's property, and who are cultivating flowers around their buildings.

This department was established nearly twenty years ago in a very modest way and has grown, like the railway into colossal proportions. The Canadian Pacific Railway company want the best in the flower line as well as in everything else; and no quarter of the globe is too remote to seek for novelties, and no flower seeds or bulbs too expensive to be grown by the great railway company's flower lovers.

As usual, the flower lovers all over the continent have been asking for their seeds, and this year promises to be a banner one in gardens and lawns across Canada.

The great success of this plan is that every employee who has an opportunity, deems it a profitable pleasure to grow flowers, not only for the benefit of himself and family, but for the beautifying of the railway line and the improvement of civic conditions in every village, town or city. Last year prizes were given all over the system for the best flower gardens and the competition was very keen. Prizes will also be given this year, and in addition, prizes will be given for the best photographs of railway gardens on the Canadian Pacific Railway system.

The Irrigation Department is decorating its grounds with flower gardens and the forestry department in the west is taking keen interest in the subject. In addition to growing flowers many agents in the west grow vegetables and have little experimental farms at their stations.

GIROUARD'S RECREATIONS.

Late Judge Was Deeply Interested in Annals of Quebec Parishes.

The late Mr. Justice Girouard, in addition to being a jurist of high distinction, was a literary man of considerable attainment. After retiring from politics his chief recreation was the study and compilation of the annals of those Lake St. Louis parishes among which his family had their rise, and to which he himself returned to make his summer home at "Quatre Vents" in Dorval. The volume "Lake St. Louis," is one of the most fascinating in the whole realm of Canadiana. The English edition, sumptuously bound and illustrated, was published by the author as a memorial to his son, Desire H. Girouard, a young man of the utmost promise, who died shortly after completing the translation of the father's French version. It is, says a Montreal writer, rather a collection of pamphlets than a systematic work of history, for the labors of the Bench did not allow the eminent justice to become also a historian. In its preparation he ransacked the archives of the Dominion Government and personally inspected every building and landmark of importance on the western half of the Island of Montreal which bore evidence of having survived from pioneer times, and, moreover, he had exceptional facilities of access to the records of the ecclesiastical foundation. He may be said to have augmented the work of Parkman.

If the death of his son Desire was a profound disappointment to the father who had justifiably cherished the highest hopes of a great career for him, the brilliant success of his other son, Edouard (now Sir Edouard Percy Cranwell Girouard) crowned his later years with complete happiness. Edouard had all the family adventurousness, and the Dominion of Canada did not seem a large enough field for his ambitions when the Imperial British service called him. His name is now a household word in all parts of the Empire, and he is probably the most widely-known of French-Canadians, with the sole exception of Sir Wilfrid Laurier. Up to the very end the relation of father and son was of the most intimate and beautiful kind. Though their field lay far apart, and they seldom met, they kept up an exceedingly detailed and regular correspondence.

Progressive Calgary.

The estimate of directory compilers place Calgary's population at 55,330. Directory figures are inclined to be just a little bit high. But allowance being made for this, the fact remains of extraordinary development taking place in the Alberta city. We have before us a document of the Board of Trade of Calgary issued in the year 1907. This pamphlet is beautifully and fetchingly illustrated. It is a cheerful, optimistic booklet, bold in its praise of Calgary's automobiles, and kine, and business blocks. How out of date it is! Calgary of 1907 was a city of but 22,000 souls. Is it that she has more than doubled her population in three years? The same directory authorities who have been referred to in this article assert that the increase of people drifting in during 1910 was 9,000 more than in 1909. Figure out the per cent. yourself. It has been stated that the Board of Trade's publication of 1907 is out of date. Its figures are now only archives; but the spirit which breathes is as true of Calgary to-day as of Calgary three years ago. Calgary is still the haven of the green-capped Englishman striking out West. There is still fat prize stock in Cow Town. The aroma of the plains Indians is there—some say—growing faint.—Courier.

Mercury Troubles.

Frost-bitten men are dropping into Edmonton these days. The trails are cold, the nights are long, the snow is deep—all of which may tend to confirm certain phases of Western conditions, sketched by a certain literary lady, who recently got into a brawl with Trade. According to despatches in Edmonton papers, the extreme rigor of northern temperature this year has kept many a mother's mail from its destination in the frontier places. When snowshoes have to break trail for the dogs, "it's very charming weather."

Played Truant

A boy twelve years old, with an air of melancholy resignation, went to his teacher and handed in the following note from his mother, before taking his seat:

"Dear sir: Please excuse James for not being present yesterday.

"He played truant, but you needn't whip him for it, as the boy he played truant with and him fell out, and he licked James; and a man they threw stones at caught him and licked him; and the driver of a cart they hung onto licked him; and the owner of a cat they chased licked him. Then I licked him when he came home, after which his father licked him; and I had to give him another for being impudent to me for telling his father. So you needn't lick him until next time.

"He thinks he will attend regularly in future."—Dundee Advertiser.

Only one-tenth of the population of the United States is of unmixed descent.

13 WEEKS IN HOSPITAL

Came Away No Better and Then Two Boxes of Zam-Buk Worked Complete Cure.

Mr. Fred. Mason, the well known upholsterer and mattress manufacturer of St. Andrews, N. B., says:—"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle and then when rubbed or scratched, would become very painful. I tried various remedies but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for 13 weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial, and although I had little hope of it doing me good, I took the advice. Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was cured."

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, sore feet, blisters, insect stings, poisoned wounds, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal. Zam-Buk Soap should also be used for washing all wounds, eczemous patches and sores. All druggists and stores sell Zam-Buk at 50c. box and Zam-Buk Soap at 25c per tablet or from Zam-Buk Co., Toronto.

"Your husband wears 'is 'air terrible short, Mrs. Gubbins."

Mrs. Gubbins—"Yes, the coward."

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Fichu-like wraps of black chantilly or soft taffeta are smart and coquettish, and very new.

Ask for Minard's and take no other.

Stella—What causes her insomnia?

Belle—She takes so many beauty exercises before retiring that it is morning when she finishes.—Harper's Bazaar.

GRAND OLD MAN OF THE PRAIRIES

DECLARES HE OWES HIS SPLENDID HEALTH TO DODD'S KIDNEY PILLS

Suffered for twenty-five years from Rheumatism and Kidney Disease—Three boxes of Dodd's Kidney Pills made a new man of him.

Swift Current, Sask. (Special).—Seventy-six years of age, but strong and healthy, Mr. J. P. Lackey of this place is one of the grand old men of the prairies. But Mr. Lackey has not always enjoyed his present health. "For twenty-five years," he says, "I suffered from Rheumatism, which I inherited. I was nervous. My limbs would swell and I had a severe pain across the back. I also had a heavy dragging sensation across the loins. I am a well man to-day and I attribute it all to three boxes of Dodd's Kidney Pills. My Rheumatism and Kidney Disease have entirely disappeared."

Mr. Lackey is showing his appreciation of Dodd's Kidney Pills by buying them and presenting them to his friends. He has joined the great army of those who have learned from their own experience that as a giver of new life to old and young Dodd's Kidney Pills stand without an equal.

An extract from a popular novel—"He pressed a burning kiss upon either cheek and straightway her face became ashen."—Judge.

A GREAT REMEDY FOR LITTLE ONES

That is what thousands of mothers say of Baby's Own Tablets. We have received thousands of letters praising them—we have yet to receive a single one condemning them. The Tablets cannot possibly do harm even to the newborn babe. They contain none of those poisonous drugs which make the so-called "soothing" mixtures so dangerous to the welfare of the little one. They are a scientific medicine prepared by one of the greatest specialists on childhood ailments and should be kept in every home where there are babies or small children. Mrs. Fred. McCarthy, Pinewood, Ont., writes: "I have used Baby's Own Tablets and have found them a great remedy for little ones. I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

W. N. U., No. 845.

Minard's Liniment used by physicians

Vaccination is a voting qualification in Norway.

Comfort for skin-tortured babies and rest for tired, fretted mothers.

Is your little one a sufferer from itching, burning eczema, or other torturing, disfiguring skin eruption? Are you, yourself, worn out by long, sleepless nights and ceaseless anxiety? And have you tried treatment after treatment without avail? Then read in these remarkable letters proof of what Cuticura Soap and Cuticura Ointment have done, throughout the world, for just such cases as yours.

Canada

When my boy was about three months old, his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran. I had to put mittens on his hands to prevent him tearing his skin. He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws.

He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. There has been no return of the trouble. (Signed) Mrs. M. C. Maitland, Jasper, Ontario.

Australia

The trouble that affected my little girl started in her head like ringworm. Then it went all over her head. The head swelled, and it went in the form of matter and all the hair came off. It was very itchy. She could not sleep, and I began to think she would never get better. I tried a lot of advertised remedies but all to no avail. She was like this for over three months until I tried a pot of Cuticura Ointment. I had not used that pot before she was completely cured. The hair grew again, and you would never know that there had been anything wrong with her head. (Signed) Mrs. P. J. Collins, Meriwood, Humffray St. N., Ballarat East, Victoria.

United States

I have a little baby almost a year old. When it was two months old it got eczema on top of both her hands, on her face and inside her nose and mouth. She refused to drink and one of her eyes almost closed up. A hard crust formed and would crack open and the blood ran out. It itched so frightfully that the poor little girl could not rest. We had to keep mitts on her hands to keep her from scratching at her face and her mother was forced to sit in a rocking chair with the baby day and night. We had a very good doctor and he did all that he possibly could to relieve the baby's torture but the results were not what we had looked for.

We got some Cuticura Soap and Cuticura Ointment, and in three days the crusts began to come off. In a week there was no more scab and now the baby is cured without a mark, sleeps soundly in her cradle and her parents in their bed, with no more sleepless nights because of the baby's suffering. "Cuticura" seems a wonderful remedy for this disease and any one having eczema should not delay in getting it. (Signed) Henry M. Fogel, R.F.D. 1, Bath, Pa.

England

If it had not been for Cuticura Soap and Cuticura Ointment, I think my baby would never have gotten over her eczema. For five months she was covered with it, beginning with her head, and going right down to her feet. It started with white pimples, then they filled up, burst, and started to run, and she gradually got worse until she was red-raw all over her body. When we washed her, she used to bleed. We had her under the doctor's care for seven weeks, but he did her only temporary good, then she would be as bad as ever, suffering terribly with itching and burning.

Then the Cuticura Remedies were recommended to us by our friends. We got some Cuticura Soap and Cuticura Ointment, and the first box gave her great relief. From that time the pimples started to dry up and fall off in little white scabs. Baby was always worse when she got warm in bed until we started with Cuticura Soap and Cuticura Ointment, and then she began to rest. We used to be awake all night with her, and nothing did her any good, but since using Cuticura Remedies we can rest all night. We used only two boxes of Cuticura Ointment and two cakes of Cuticura Soap, and they cured her completely of her eczema. (Signed) Mrs. Drewell, The Grange, Aldwark, Alne, nr. York.

Scotland

When our little boy Andrew was four months old, little red spots came on his head and face. Then they spread all over his head, so I took him to my doctor and he gave me an ointment to use. The spots became broken sores, and the ointment didn't do any good. Then I took him to the hospital. They gave me ointment which did no good. He was then a mass of sores on the head and face, and the child was suffering dreadfully. He would scratch the sores till they bled, so we had to tie his hands. The child was crying all the time with the terrible sore.

Then I saw Cuticura Soap and Ointment advertised, and tried them. I saw a great difference in a few days, the sores healed up quickly, so I kept on using Cuticura Soap and Ointment perhaps every other day. Now the child is completely cured, he is healthy and sleeps well. He suffered for about seventeen months before I tried the Cuticura Soap and Ointment. We had given him up as hopeless, and someone said he would be better dead, his suffering was so terrible. I was almost out of my mind, for I could get no sleep for him always crying. Cuticura Soap and Ointment did him a world of good, and now there isn't a mark on him. (Signed) Mrs. Greig, 2a Windmill Lane, Edinburgh.

Trial Treatment Free

That all may try without expense this treatment which, for more than a generation, has maintained its position as the speediest, simplest and most economical for skin and scalp humors of young and old, a liberal sample of Cuticura Soap and Cuticura Ointment with 32-p. book on skin troubles, will be sent, post-free, on application to Potter Drug & Chem. Corp., 86 Columbus Ave., Boston, U. S. A.

Claresholm Review.

ESTABLISHED 1904.

$1.50 per year. Single copies 5cts
T. W. QUAYLE, Editor.

THE LICENSE BY-LAW

There is some disposition to criticise the action of the town in prosecuting the owners of automobiles who were in court on Saturday last. The Review hasn't any very decided opinions on the subject other than that it is good policy on the part of a community to enforce its bylaws if such exist. Respect for law is only secured by having fair laws and then enforcing them. The council will doubtless be largely guided by public opinion and if the majority of ratepayers say that such bylaws should be repealed the council would probably acquiesce. The bylaws were framed at the request of the livery men and they should have paid their license without squealing and then demanded the enforcement of the law. If Mr. Amundsen, for example was guilty of infraction by running an automobile in 1909 for which on one occasion he took a fee then the livery men were guilty of running a business in 1910 without paying a license and violated the bylaw the same as the others. The Oddfellows lodge, through an officer was summoned for running a theatre in 1910 without paying a license. Why the discrimination? Perhaps the town officials didn't look at it in quite that light but the fact remains. The license bylaw is more or less of a protective character and unless it really does protect it should be abolished. All who were taken to court doubtless feel sore but calm reflection will surely result in either acknowledging the necessity of the bylaw or in a decision to take aggressive action to have it repealed. It is proposed to pass an amendment to the bylaw providing for licensing real estate agents. That would prevent any other man from selling a piece of land on commission. If the amendment is made all should be prepared to uphold it. In the meantime let the ratepayers express themselves and the council without a shadow of doubt will give expression to the will of the majority. Being a protective measure men who are engaged in a business which does not ask for protection are inclined to assume an indifferent attitude.

If the hitching posts are to be painted green why not give that watering trough opposite Third Avenue a dab of orange?

The crops are growing nicely thank you. With even a modest amount of moisture there will be a bumper.

Any desire we had to own an automobile faded away in police court last Saturday. Shanks mare for ours.

If proper seed can be obtained it is about time to think of putting in a few sample plots of sugar beets. Don't worry about the present hitch in the arrangements. We have the soil and climate and the capitalist will come our way.

Funny isn't it? but Claresholm has more livery men than grocers. That is on the interpretation of the civic by laws.

The supply of farm help at present seems to be well supplied. But we will need more later on. Just wait until the harvest.

The C.P.R. gave the town a pleasant surprise by starting work so promptly on the new station. Every one was prepared to hear of a delay. It takes the C.P.R. to do things.

Perhaps it would be as well to repeal that license by law.

The provincial government will have general approval in the promise of financial support to the dry farming congress. It is a good move and capable of doing the province as a whole great good from a publicity standpoint.

The people are not so much afraid of the term dry farming now as they were a few years ago. Scientific farming would be a more appropriate name for it however.

The, publicity commissioner for the province has asked for literature from the Claresholm district. Isn't it about time the publicity committee of the board of trade got busy. Come you business men with big holdings in the district. Cash up for the necessary fund to advertise your wares. It will prove to be money well spent.

The dairy cow is lifting the mortgage off farms in other countries. The same industrious animal would do it here.

With one councillor a defendant and another called to convict it can't be charged that partiality is shown in the administration of civic by laws.

If reciprocity is to be opposed let it be done for business reasons. Those loyalty cries are the biggest possible insults to the intelligence of the people. Canadians are hot so fickle as to change allegiance for a few dollars. The very suggestion is an insult to the national pride and holds Canadians up to the world as a nation of cheap skates.

The Standard, a new weekly paper has made its appearance in Calgary and is a neat looking paper typographically. It has only one weakness. The political stuff is being written by a parson. He will prove a false alarm. Ministers are not fitted by training to write political editorials and the Calgary gentleman is not an exception to the rule.

The Strathmore Standard got out a progressive looking special number. The Standard is to be congratulated and the merchants likewise for their enterprise in supporting the venture. They will get their money back one hundred fold.

Claresholm board of trade is alive and is doing what it can to keep the town and district on the map. Every man interested in the town should become a member.

Tom Richardson the great publicity expert didn't tell the people of Lethbridge anything very new. Any up to date man could have handed out similar advice. But Richardson has the stimulating enthusiasm and the touch which aroused interest and made people think about the message. Messages are easily thought out. It is the trick of getting the people to listen and act that counts. That is where Richardson shines.

The great trouble with boards of trade in the west is that they are born in a burst of enthusiasm and die for lack of a program, or leadership, or some such cause. Let a board have faith in its district, faith in the potentialities and possibilities of the district and a definite line of action and there will be no danger of lethargy. It is the lack of a vision, of an ideal and object which kills most of the organisations of this kind.

For $20 a Month

You can rent the Priest house, Claresholm north. There are four lots, and splendid out buildings chicken-coops, etc. There is enough land to produce the bulk of your household stuff in. This is the best value in Claresholm.

Apply, F. W. Priest.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by dealers everywhere.

Says By-Law IS A Farce

Editor Review—In connection with the prosecution in criminal court on Saturday last of a number of prominent ratepayers, who are apparently unfortunate in owning automobiles and accomodating neighbors occasionly, I would like to know at which meeting of the town council the civic officials were authorized to institute these proceedings and also would like to learn whether the officials or the council are running this town. If the town of Claresholm is so hard up for revenue that ratepayers have to be hauled into court as criminals it is time to revise the whole order of things and manage the town on a different basis. I am informed that the ratepayers subjected to this unpleasantness were used as a means of inducing regular livery and draymen to pay their license. If such is the case the administration of civic by laws has degenerated to a farce and they had better be repealed. Just fancy because Mr. Guy was accomodating enough to give a doctor the use of his car for a hurryup call to a maternity case 25 miles distant, he is, as a penalty, to be hauled before the magistrate like a common criminal and rendered liable for punishment. There is only one auto owned in connection with the livery business in Claresholm and it was out of commission. The livery men couldn't give the service asked for. A friend was appealed to. He complied and the doctor without being asked tendered a fee to cover the costs—and that makes Mr. Guy a law breaker.

Before even Mr. Vanhorn owned an auto Mr. Amundsen accommodated a friend who wanted to go to Carmangay. He took $5 for the use of the car in the way of gasoline, etc. and he becomes a criminal. To argue that isolated instances like these make a man a livery keeper is too asinine for further comment. Why don't the livery stables maintain a satisfactory automobile service if they object to men in a hurry appealing to those who do own cars for accommodation. The whole thing is a travesty and in view of the fact that the livery stables are not so equipped and the supplying of the deficiencies makes private owners of cars criminals the bylaw should be repealed. As it is at present it is a reproach to the town. Neither Mr. Guy, Mr. Cumming, Mr. Amundsen or the writer are carrying on the livery business. They make no pretense to it, are not competing with the liverymen, have not taken a dollar from them and to take such proceedings as those of Saturday last will do the town considerably more harm than good.

Chas. W. James.

It there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by dealers everywhere.

Doctor Examined Scholars

The School Board met on Friday last and Mr. Amundsen took the declaration of office in succession to Mr. Henderson. An interesting feature of the meeting was the reading of a report from Dr. Steeves on a special medical examination of the pupils. He examined 150 pupils especially as to their hearing, condition of teeth, throat, etc. He found fifteen with enlarged tonsils, seven with decayed teeth and enlarged tonsils, seventeen with decayed teeth, three with nasal polypi, and three with deafness. He said that nearly all the cases could be cured or relieved without difficulty and suggested that if the examinations were to be made regular that they be made quarterly or semi-annually. He also recommended a test of the eyes and a looking for infectiousness that may exist. The report of Inspector Morgan's first visit was read. He said nice things about all the teachers and complimented the board on the excellence of the school and the general condition of the grounds. The only criticism he made was on the lack of scientific apparatus in Mr. Brownlee's room, greatly hindering the principal in teaching high school work. He suggested that the equipment be added to each year.

Claresholm Band and Football Club are going to Cayley on Victoria day.

A. E. Thompson has entered the News-Telegram automobile contest. Help Claresholm win out.

Chiefly Claresholm

The funeral of little Edna Vaughan took place on Friday last and a large number of friends attended. The obsequies were conducted by Rev. Mr. Wilkinson of St. John's church.

The congregation of the Presbyterian church has extended a call to the Rev. Wm. McNichol of Thessalon, Ont. As the moderator of the session Rev. Mr Bryan has full power to act, there will be no delay in communicating with the Algoma Presbytery and Mr. McNichol should be here in a month.

Miss Davidson niece of Mr. W. R. Lindsay, who visited here last summer and made many friends, was married on Wednesday this week in Montreal to Mr. James Woodyatt, city engineer of Sherbrooke. Miss Lindsay who went east last week was bridesmaid.

Mr. W. P. Teskey returned from Lethbridge on Monday night having undergone an operation in the Galt hospital which practically meant the resetting of his knee. He will be on crutches for a time but expects to be strong as ever again in a short time.

The contract for the uniforms for the band has been given to Jones & Munro. The band has selected a dark grey cloth which will be trimmed with mohair braid one and a quarter inches in width. The cut of the suit looks quite natty. It is expected that the band will give a number of open air concerts shortly.

Mr. Fred Hossell, who bought A. E. Burkes farm last year had the misfortune to lose his stables by fire on Friday last. There was accommodation for fourteen head of horses and this with the granary and blacksmithing outfit went up in smoke. The loss was fully $1000 with small insurance. Mr. Hossell is a progressive farmer who has been up against it before and has made good and he takes the loss philosophically.

One owner of an automobile has an engenious proposal for evading the license bylaw. He says the town bylaws are only operative within the limits of the corporation. What would be the matter with asking a man who wanted to go to Carmangay or Barons to walk to the corporation boundary and then charge him for the ride from that point on. How about that?

The following from the News of Sport in the Toronto Globe anent the Claresholm Derby shows that this town and its fair and races are heard of some miles from home. The Globe said, "The Claresholm Derby, several years old, is now a fixture of quite respectable antiquity for an event in a new north-west settlement. It will be run this year on the second day of the August races at this flourishing Alberta town. The Derby is a handicap at a mile and a quarter for a sweepstake of ten dollars each and $120 added. Pony races, Indian races, hurdle and harness events are all on the program. Thirteen races are provided for in two days and they look as big to that community as the King's Plate and the Woodbine Meet to us here in Toronto."

Major W. A. Lyndon has been placed on the retired list of officers and is succeeded in command of the squadron by C. W. James who now ranks for the title of major. Captain McKinnon is going on the staff of officers. Major Lyndon in speaking to the Review expressed great surprise that the armoury promised Claresholm had not been built and felt sure it would come this year. He says that Col. Cruikshanks O.C. is quite favorable to it being built and doubtless will do his best to have the promises made Claresholm fulfilled.

An aged resident of Claresholm died on Sunday night in the person of Edward Bunting. He had only lived in Claresholm for a year and was not very well known being eighty years of age. He was a native of Ireland and in early days came to Canada settling in Victoria county, near Lindsay, Ont. He was a farmer and leaving Ontario lived in Ramsay county North Dakota for years, coming to Alberta about five years ago settling near Carmangay. He was a man of sterling worth and enjoyed the utmost confidence of friends and neighbours. In religion he was a presbyterian. A widow and 7 children survive, 4 daughte and three sons. The funeral took place on Wednesdry interment being made in Claresholm cemetery.

BORN

Nowlin.—On Thursday May 3rd to Mr. and Mrs. G. W. Nowlin, a son.

Power.—On Monday May 8th to Mr. and Mrs. William Power, a daughter.

Ernie Moffatt picked up an unusual find on the street the other day. It was a flint arrow head and apparently a relic of a by gone day.

The Pioneer Lumber Co. have the means to give the farmers the very best of terms. If you are thinking of building this year see the local manager and talk it over.

There are many cows and horses roaming the streets these days and the Review is informed that the town by law regulating animals is to be enforced. There will be a full pound one of these fine mornings.

Mr. Kenny, secretary of the Sunday School Association addressed a representative gathering of local workers Tuesday night, outlining the plans for the summer schools this year. In the south the schools are to be held at Banff and Blairmore.

Don't buy unseasoned lumber just for the sake of saving a few dollars. It will prove a disappointment and cause you many worries and much damage. The Pioneer Lumber Co. sells the best at the lowest possible prices.

A team belonging to the mounted police and which was being used to draw away manure from the stables here ran away on Saturday and badly wrecked the wagon although the team escaped harm. There was a strong wind blowing and it blew the gate against the wheels frightening the horses. They made a fierce get away and did about $50 damage to the rig.

Inspector Tucker left this week on a two months furlough which will be spent at the Kootenay lakes. The Inspector has been twenty eight years on the force and has filled some of the hardest positions being in the Yukon for a considerable time. He has had few holidays and intends to devote this one to absolute rest.

The Pioneer Lumber Co. sells every thing in the building line. It is carefully selected stock and designed to meet your needs. Why take what you don't need when the Pioneer Co. can give you what you want.

Mr. Henry Paulson was married Wednesday afternoon to Miss Helen Peterson of Norway. The ceremony which was a very quiet one took place at the residence of the Rev. Mr. Lovick pastor of the Lutheran church. Mr. and Mrs. Paulson will take up residence in the house recently occupied by Mr. Freeman Anderson on Shelver street. Many friends join in congratulations and best wishes.

At a meeting of a number of the men interested in trying to get a sugar factory for Claresholm on Saturday last it was decided to send a delegation to Calgary on Thursday to join representatives from High River and Strathmore in formulating a contract which would be acceptable to the farmers. It is also hoped to have the privilege of interviewing the Company in the afternoon. Messrs. Amundsen, Drollinger and Workman were named to attend the joint committee meeting and Mayor Milnes, N. Holmes and T. W. Quayle to join them in the deputation.

A cat belonging to J. A. Holden gave birth to four kittens this week and to make herself comfortable took possession of a hens nest. When the cat left the nest to look for grub the hen resumed possession and the interesting sight of a hen mothering four little kittens was then presented. She covered the kittens with her wings and vigorously disputed the maternal claims of the cat. Every time the real mother came along to claim her brood the hen would pick at her and mamma cat had to beat a retreat. Whether the hen thought she had hatched out a new species in the poultry line or not is a matter for scientific conjecture but certainly she hovered over the kitties with loving maternal solicitude. The grub stake however did not fit in with the requirements of kitten existence and they not being welcome visitors took the short route to the happy hunting grounds..

TURKEY EGGS, $1[illegible] for nine. Address A. King, Fair View Ranch, Claresholm, Alta. Eggs can be delivered in any store in town.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by dealers everywhere.

The Riverman

By STEWART EDWARD WHITE

Copyright, 1908, by the McClure Company. Copyright, 1907, 1908, by Stewart Edward White

(Continued.)

Chapter 34

ORDE now took steps to deflect into the channel recently dredged to Stearn's bayou the mass of the logs racing downstream from Redding. He estimated that he had still two hours or so in which to do the work.

This at first he succeeded in doing, and very successfully as affecting the pressure on the jam below. To the crew working in the channel dredged through to Stearn's bayou the affair was that of driving a rather narrow and swift stream, only exaggerated. A large proportion of the timbers found their way into the bayou. Those that continued on down the river could hardly have much effect on the jam. As yet only the advance of the big jam had arrived at the dredged channel.

"We can't keep this up when the main body hits us!" Orde panted to Jim Denning. "We'll have to do more pile driver work."

He made a rapid excursion to the Boom camp, whence he returned with thirty or forty men.

"Here, boys," said he, "you can keep these logs moving in this channel for a couple of hours."

Orde now returned to the jam, where, on the pile driver, the tugs and the booms he set methodically to strengthening the defenses.

But shortly the water began to rise again, this time fairly by leaps. For the hundredth time the frail wooden defenses opposed to millions of pounds were tested to the very extreme of their endurance. The network of chains and cables tightened, drawing ever nearer the snapping point. Suddenly, almost without warning, the situation had become desperate.

He shook his fist against the menacing logs

And for the first time Orde completely lost his poise and became fluently profane. He shook his fist against the menacing logs; he apostrophied the river, the high water, the jam, the deserters, Newmark and his illness, ending in a general anathema against any and all streams, logs and floods.

"Well," said Tom North, "he's good and mad this time."

At the dredged channel Orde saw the rivermen standing idle, and, half blind with anger, he burst upon them. Then he stopped short and stared.

Square across the dredged channel and completely blocking it lay a single span of an iron bridge. Behind it the logs had, of course, piled up in a jam, which dammed back the water.

"Where in h— did that drop from?" cried Orde.

"Come down on top the jam," explained a riverman.

Orde, suddenly fallen into a cold rage, stared at the obstruction, both fists clinched at his side.

"That about settles it," said Welton.

"Settle!" cried Orde. "I should think not!"

Welton smiled quaintly.

"Don't you know when you're licked?"

"Licked, h—!" said Orde. "We've just begun to fight."

"What can you do?"

"I'll blow her up with powder."

"Ever try to to blow up iron?"

"There must be some way."

"Oh, there is," replied Welton, "of course—take her apart bolt by bolt and nut by nut."

"Send for the wrenches, then!" snapped Orde.

"But it would take days. It would be too late. It would do no good."

"Perhaps not," interrupted Orde, "but it will be doing something, anyway. Look here, Welton, are you game? If you'll get that bridge out in two days I'll hold the jam."

"You can't hold that jam two hours."

"That's my business. Will you send for lanterns and wrenches and keep this crew working?"

"I will," said Welton.

During the next two days the old scenes were all relived, with back of them the weight of the struggle that had gone before. Pines belonging to divers and protesting owners were felled and sharpened. Even the inviolate government supply was commandeered.

Then all at once, as though a faucet had been turned off, the floods slackened.

"They've opened the channel," said Orde dully. His voice sounded to himself very far away. He felt himself moving in strange and distorted surroundings. He heard himself repeating to each of a number of wavering, gigantic figures the talismanic words that had accomplished the dissolution of the earth for himself, "They've opened the channel." At last he felt hard planks beneath his feet, and, shaking his head with an effort, he made out the pilothouse of the Sprite and a hollow eyed man leaning against it. "They've opened the channel, Marsh," he repeated. "I guess that'll be all." Then quite slowly he sank to the deck, sound asleep.

* * * * * * * *

When Newmark left, in the early stages of the jam, he gave scant thought to the errand on which he had ostensibly departed. Whether or not Orde got a supply of piles was to him a matter of indifference. His hope, or, rather, preference, was that the jam should go out; but he saw clearly that Orde, blinded by the swift action of the struggle, was as yet unable to perceive. Even should the riverman succeed in stopping the jam the extraordinary expenses incidental to the defense and to the subsequent salvaging, untangling and sorting would more than eat up the profits of the drive. Orde would then be forced to ask for an extension of time on his notes.

On arriving in Monrovia he drove to his own house. To Mallock he issued orders.

"Go to the office and tell them I am ill," said he, "and then hunt up Mr. Heinzman. I want to see him immediately."

The German entered rather red and breathless, surprised to find Newmark at home.

"Heinzman," said he, "in three weeks at the latest Orde will come to you asking for a renewal of the notes you hold against our firm. You must refuse to make such a renewal."

"All righdt," agreed Heinzman.

"He'll probably offer you a higher interest. You must refuse that. Then when the notes are overdue you must begin suit in foreclosure."

"All righdt," repeated Heinzman, a little listlessly. "Do you think he vill hold that jam? I got lots of logs in that jam. If it goes out I vill lose a heap of money."

"Well, you'll make quite a heap on this deal," said Newmark carelessly.

"Suppose he holds it," said Heinzman, pausing. "I hate like the mischief to joomp on him."

Newmark looked at the German sharply. "I suppose you know just how deep you're in this?"

"Oh, I ain't backing oudt," negatived Heinzman—"not a bit."

Little by little the water went down. The pressure, already considerably relieved by the channel into Stearn's bayou, slackened every hour. Orde, still half dazed with his long delayed sleep, drove back along the marsh road to town. Orde began to review the situation. As Newmark had accurately foreseen, he came almost immediately to a realization that the firm would not be able to meet the notes given to Heinzman. Orde had depended on the profits from the season's drive to enable him to make up the necessary amount. Those profits would be greatly diminished if not wiped out entirely by the expenses, both regular and irregular, incurred in holding the jam.

"I'll have to get an extension of time," said Orde to himself. "Of course Joe will let me have more time on my own personal note to the firm. And Heinzman surely ought to. I saved a lot of his logs in that jam. And if he doesn't want to I guess an offer of a little higher interest will fetch him."

Finally he pulled up opposite the Orde house, sprang up the walk and into the front door.

"Hello, sweetheart!" he called cheerily.

The echoes alone answered him. He cried again and yet again, with a growing feeling of disappointment that Carroll should happen to be from home. A moment later Mary, the Irish servant girl, came through the dining room, caught sight of Orde, threw her apron over her head and burst into extravagant demonstrations of grief.

"What is it, Mary?" he asked very quietly.

But the girl only wept the louder. Orde sprang forward to shower her with questions. These elicited nothing but broken and incoherent fragments concerning "the missus," "oh, the sad day!" At this moment Bobby appeared from the direction of the kitchen. Orde, frantic with alarm, fell upon his son. Bobby could only mumble something about "smallpox" and "took mamma away with doctor."

"Where, where?" cried Orde.

At this moment a calm, dry voice broke through the turmoil. Orde looked up to see Dr. McMullen standing in the doorway.

"It's all right," said the doctor. "Your wife was exposed to smallpox and is at my house to avoid the danger of spreading contagion. She is not ill."

"Where was she exposed?"

"Down at Heinzman's. You know—or perhaps you don't—that old Heinzman is the worst sort of anti-vaccination crank. Well, he's reaped the reward."

"Has he smallpox?" asked Orde.

"No; his daughter Mina. Lord knows where she got it. Mrs. Orde happened to be with her when she was taken with the symptoms that begin the disease. As a neighborly deed she remained with the girl. Of course no one could tell it was smallpox at that time. Next day, however, the characteristic rash appeared on the thighs and armpits. I telegraphed to Redding for a nurse. Until she came Mrs. Orde stayed by like a brick. Don't know what I should have done without her."

"When was this?" asked Orde.

"Seven days ago."

"How is Mina getting on?"

"She'll get well. I suppose I'll have old Heinzman on my hands, though. Emotional old fool. Rushed right in when he heard his daughter was sick. Couldn't keep him out. And he's been with her or near her ever since."

"I'm going to step up to your house and see Mrs. Orde."

"You can telephone her," said the doctor.

He called up Dr. McMullen's house on the telephone.

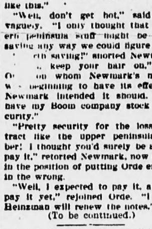
"You're a dear, brave girl, and I'm proud of you," said Orde.

"Nonsense! There was no danger at all. I'd been vaccinated recently. And somebody had to take care of poor Mina until we could get help. How's Bobby?"

After lunch Orde went downtown to his office. Newmark came in. "Hello, Joe!" said Orde, with a slight constraint. "Too bad you got sick just at that time. We needed you."

"You know I'd have been there if possible."

"Well, we had a lively time, you bet, all right, and got through about by the skin of our teeth." He arose and walked over to Newmark's desk, on the edge of which he perched. "It's cost us considerable. I'll have to get an extension on those notes."



"What's that?" asked Newmark quickly

"What's that?" asked Newmark quickly.

"I don't believe I'll be able to meet those notes. So many things have happened"—

"But," broke in Newmark, "the firm certainly cannot do so. I've been relying on your assurance that you would take them up personally. Our resources are all tied up."

"Can't we raise anything more on the nothern peninsula timber?" asked Orde.

"You ought to know we can't!" cried Newmark, with an appearance of growing excitement. "The last seventy-five thousand we borrowed for the finishes that."

"Can't you take up part of your note?"

"My note comes due in 1885," rejoined Newmark, with cold disgust. "I expect to take it up then. But I can't until then. I hadn't expected anything like this."

"Well, don't get hot," said Orde vaguely. "I only thought that northern peninsula stuff might be worth saving any way we could figure it."

"[illegible]rth saving!" snorted Newmark.

"[illegible] keep your hair on," said Orde, on whom Newmark's manner was beginning to have its effect, as Newmark intended it should. "You have my Boom company stock as security."

"Pretty security for the loss of a tract like the upper peninsula timber! I thought you'd surely be able to pay it," retorted Newmark, now secure in the position of putting Orde entirely in the wrong.

"Well, I expected to pay it, and I'll pay it yet," rejoined Orde. "I think Heinzman will renew the notes."

(To be continued.)

BUGGIES

DEALERS

A bet doesn't prove anything beyond the fact that two men are willing to risk their money.

Another form of amusement which never appealed to us how it is standing in a crowd and watching a bulletin board.

After an actress passes a certain age she has to make up for lost time.

Juggins—"Who was it that said if he could make the songs of the people he would not care who made the laws?"

Muggins—"Don't know. But if he's the chap who's making the songs of the people nowadays I'd just like to have the making of the laws a little while! That's all!"—Red Hen.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Eclectric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Eight or nine women, assembled at a luncheon, were discussing ailments and operations, as eight or nine, or one or two, or sixty or seventy women will. The talk ran through angina pectoris, torpid liver, tuberculosis, and kindred happy topics.

"I thought," commented the guest of honor, "that I had been invited to a luncheon, and not to an organ recital."—Western Christian Advocate.

They Soothe Excited Nerves.—Nervous affections are usually attributable to defective digestion as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so affective work, as can be testified to by thousands.

"I'm going to take a stick to that miserable beast of yours one of these days, madam."

"I wish you would. Neither his father nor myself can do a thing for him."

"Madam, I am speaking of your dog, not of your little boy."

"What! Take a stick to my Fido! You horrid brute, you! Don't you dare!"

WHAT EVERY WOMAN OUGHT TO KNOW
READY REFERENCE BOOK

Containing over 300 pages of valuable information, which every girl contemplating marriage ought to know and no married woman can afford to be without. Important subjects more fully explained with full page illustrations. This valuable book will be mailed in plain wrapper post paid to any address in Canada upon receipt of one dollar ($1.00).

The Ready Reference Book Co.,
21 Adelaide St., E.,
TORONTO, ONT.

Caution

"A verdict for $10,000 isn't so bad," said the junior partner, "How much shall we allow our client?"

"Oh, give him $50," answered the senior partner.

"But hold!"

"Well?"

"Don't be hasty. Promise to give him $50."—Louisville Courier-Journal.

BANISH PIMPLES AND ERUPTIONS

IN THE SPRING MOST PEOPLE NEED A TONIC MEDICINE

If you want the best of health and new strength in the spring you must build up your blood with a tonic medicine. Following the long, indoor winter months most people feel depressed and easily tired. This means that the blood is impure and watery. It is this state of the blood that causes pimples and unsightly eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp, stabbing pains of sciatica and neuralgia; poor appetite, frequent headaches and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired out, ailing men, women and children. If you are feeling out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail at 50c a box, or six boxes for $2.50 by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Poet (taking his children through the art gallery)—"Good heavens, my little ones, look at that picture, 'Sleeper on a park bench.' The painter has actually put my last volume in the fellow's hand."—Fliegende Blatter.

Minard's Liniment lumberman's friend

Customer—"Look here! Isn't that a hair in the butter?"

Waiter—"Yes, sir—a cow's hair. We always serve one with the butter to show that it isn't margarine."

His Choice

A boy went into a shop to buy a cent's worth of nuts. The man at the counter, a grocery, good natured soul, said to him:

"You can have them mixed, if you like."

"All right," said the boy, "you may put one or two cocoanuts in, if you please."—Tit-Bits.

A Pill For All Seasons.—Winter and summer, in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always and should carry them with him everywhere. They are made to withstand any climate and are warranted to keep their freshness and strength. They do not grow stale, a quality not possessed in many pills now on the market.

"In some of the provincial theatres the arrangements and construction are absurdly old-fashioned," remarked a conceited actor. "Last week, for instance, I was playing Hamlet at Seaport. There was an alarm of fire, and it took no less than ten minutes for the audience to pass through the doors." "The poor fellow was lame, I suppose," was the cruel comment.

Minard's Liniment Co., Limited.

Dear Sirs,—Your MINARD'S LINIMENT is our remedy for sore throat colds and all ordinary ailments.

It never fails to relieve and cure promptly.

CHARLES WHOOTEN.
Port Mulgrave.

To dry parsley, wash the parsley and shake it well. Then set in a warm oven, and when it becomes crisp let it cool. Put into tins or bottles and exclude the air from it.

Take Hall's Family Pills for constipation.

A man went into a Southern restaurant not long ago and asked for a piece of old-fashioned Washington pie. The waiter, not understanding and yet unwilling to concede his lack of knowledge, brought the customer a piece of chocolate cake.

"No, no, my friend," said the smiling man. "I meant George Washington, not Booker Washington."

Keep Minard's Liniment in the house

Professor—"The result of our investigations for the past half hour is that man has freedom of the will. I regret that I cannot continue the subject today, as I have to go shopping with my wife."—Fliegende Blaetter.

Dancer—When do you go on?

Singer—Right after the trained cats.

Dancer—Godness me! Why doesn't the manager try to vary the monotony of his acts?—Stray Stories.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box. 6

Guaranteed to contain no morphine, opium or other poisonous drugs, by the National Drug and Chemical Company of Canada, Limited. . . . . Montreal. 30

$3,600 in Cash Prizes for Farmers

ARE you going to build that new horseblock, sidewalk or dairy house of cement? Then insist on your dealer supplying you with the "CANADA" Cement. Not only will this ensure your getting a pure, uniform and strictly high-grade cement, that will guarantee the lifelong permanency of the thing you build, but it will also entitle you to enter our Prize Contest. And in this contest you stand a good chance of winning a prize that will perhaps more than pay you for the cost of the work. Every farmer in Canada who uses "CANADA" Cement is eligible to compete. Four prizes will be awarded in each Province and these prizes will be divided as follows:

PRIZE "A"—$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of barrels of "CANADA" Cement.

PRIZE "B"—$100.00 to be given to the farmer in each Province who uses "CANADA" Cement on his farm in 1911 for the greatest number of purposes.

PRIZE "C"—$100.00 to be given to the farmer in each Province who furnishes us with the photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement.

PRIZE "D"—$100.00 to be given to the farmer in each Province who submits the best and most complete description, of how any particular piece of work shown by photograph sent in, was done.

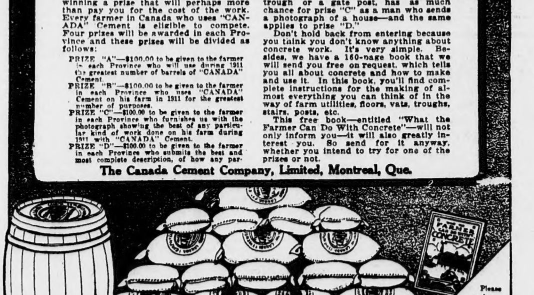
Notice how we have purposely planned and imposed certain necessary conditions in order to give large and small users of cement an equal opportunity.

As an illustration of this: In prizes "C" and "D," the quantity of cement used has no bearing whatever on the result. The farmer who sends us the best photograph of as small a thing as a watering trough or a gate post, has as much chance for prize "C" as a man who sends a photograph of a house—and the same applies to prize "D."

Don't hold back from entering because you think you don't know anything about concrete work. It's very simple. Besides, we have a 160-page book that we will send you free on request, which tells you all about concrete and how to make and use it. In this book, you'll find complete instructions for making almost everything you can think of in the way of farm utilities, floors, vats, troughs, stairs, posts, etc.

This free book—entitled "What the Farmer Can Do With Concrete"—will not only inform you—it will also greatly interest you. So send for it today, whether you intend to try for one of the prizes or not.

The Canada Cement Company, Limited, Montreal, Que.



Please send particulars and book.

WILL PROTECT THE WORKER

BRITAIN TO INSURE AGAINST LOSS FROM UNEMPLOYMENT

David Lloyd-George Introduces His Long Promised Scheme of State Insurance—A small Weekly Assessment Protects the Working Class—Scheme Meets With Hearty Approval from Both Parties

London.—The long promised scheme of state insurance against unemployment, sickness and invalidity, introduced in the House of Commons recently by David Lloyd-George, chancellor of the exchequer, was received with an extraordinary chorus of approbation by all parties in parliament, which must have greatly astonished that much excited member. It will be difficult to avoid the conclusion that the praise bestowed by his political opponents conceals a side thrust at his old age pensions measure, which has always been severely criticized by the Unionists, because it was not contributory.

The chancellor divided his proposition in two parts, one dealing with sickness and the other with unemployment. By the provisions of the measure, every worker whose annual earning falls below the income tax level of £160 sterling, will compulsorily insure against illness so as to insure him the receipt of five shillings (1.20) per week during his incapacity. Toward this, this worker would contribute about one half, the same being deducted from his wages, while the balance would be paid jointly by his employers and the state.

The weekly assessment against the insured would be eight cents in the case of a man, and six cents for a woman representing as the chancellor put it, two pints of ale or one ounce of tobacco.

Every one in the clause mentioned between the ages of sixteen and sixty-five is included in the plan. The employers would pay six cents weekly for every employee and the government contribute four cents for each of the insured.

Mr. Lloyd-George estimated that his plan would affect 14,700,000 men and women. Provision is made whereby women will receive thirty shillings in maternity cases on condition that they do not work for a month following child birth and for free medical attendance for every contributor.

The state would also help in the crusade against consumption, providing $7,500,00 to aid local authorities in building sanatoriums and $5,000,000 toward their maintenance. Although in cases of permanent disability, the sick allowance would be five shillings weekly, ten shillings would be allowed for the first three months in the case of men and seven shillings and sixpence in the case of women. Those who can be shown to have invited incapacity, would receive no insurance, though any necessary medical treatment would be provided.

Mr. Lloyd-George estimated that the expenditure will be $35,000 in 1912-13, rising to $100,000 in 1915-16. Dealing with unemployment insurance, the chancellor said that it would at first apply only to the engineering, shipbuilding and house building trades, involving 2,500,000 workers. Both the workers and the employers would pay five cents weekly each, the state contributing $3,750,000 a year or about one-fourth of the total cost. The contributioners when unemployed will receive a maximum of 15 shillings and a minimum of seven shillings weekly: No payments would be made in strikes or lockouts. The chancellor was doubly cheered when he concluded his speech. J. Austin Chamberlain supported the bill, saying the opposition desired to co-operate in the legislation.

Homestead Entries

Calgary.—The returns from Calgary Dominion land office for the month of April this year, as compared with the corresponding month last year show a considerable decrease all round. The number of homesteads taken up this month was 498, against 1,219 for April, 1910, being a decrease of 721. The total number of pre-emptions is 276 against 870 for the corresponding month last year, a decrease of 594. The number of homesteads purchased during the month is ten, as compared with twenty for April last year, a decrease of ten. Thirty-four scrips were issued for the month against 141 for April last year, being a decrease of 107. No half-breed scrip has been issued this month, the number last April being twenty-eight.

Anglo-Japanese Treaty

Tokio.—Ratifications of the Anglo-Japanese commercial treaty have been exchanged. Great Britain and Japan have negotiated a commercial treaty, which will come into force on July 17, replacing the existing treaty, expiring on July 1. The new pact removes the opposition of British merchants to the recently adopted Japanese tariff, which heavily increased the duty on British manufacturers as Japan grants a reduction varying from 12 to 30 per cent upon a large number of British imports.

Hon. A. E. Forget for Senate

Ottawa.—Hon. A. E. Forget, former lieutenant-governor of Saskatchewan, has been appointed senator in succession to Senator Roy, of Edmonton, who goes to Paris as Canadian commissioner. Premier Hassard, of Prince Edward Island, has been appointed to the vacancy of the supreme court bench of the island, while Benjamin Prowza, brother of the member of parliament of that name, has been elevated to the senate in succession to the late Senator Ferguson.

May Affect Coronation Programme

London.—Uneasiness is manifested here over the report that Alexandra, the Queen Mother, was ill during the Mediterranean trip that has just been completed.

Conflicting reports as to her present condition are circulated, giving rise to the fear that the coronation programme may be effected.

SEDITION ON THE INCREASE

Rebels Warn American Citizens to Cross the Line Into United States for Safety

Nogales, Ariz.—Whatever the prospects of peace at El Pasco and Juarez, there are no peaceful signs along the western coast of Mexico. News that dribbled into Nogales from various quarters of the states of Sinaloa and Sonora tell of scenes of disorder and almost continuous fighting. There were reports of skirmishes and fights, with attendant loss of life from several points.

It is apparent that sedition and strife in these states is on the rapid increase and Americans in this city familiar with the conditions across the border regard the situation as very grave. Not only is the political welfare of the Western Mexican states affected, but American interests are involved and in danger. Even the lives of Americans, hitherto held sacred by federals and rebels, are no longer regarded safe in the interior of Mexico.

Prominent railroad officials who reached here from Mexico brought with them the warning from the rebels to remove all their families as quickly as possible into the United States and to advise all of their American friends to do likewise. Coupled with these warnings was the threat of the insurrectos that they intended before the end of the week to launch attacks against all the Mexican border towns. Many American families are coming across the border.

RIOTS AT OLD JERUSALEM

Inhabitants Aroused by Operations of a Party of English Archaeologists

Jerusalem.—The inhabitants have been aroused to a point of rioting by the operations of a pary of English archaeologists accused of having excavated beneath the inviolable mosque of Omar and removed relics reputed to include the ark of the covenant, censer and other sacred vessels that belonged to the tribes of Israel.

Azmey Bey, the Turkish governor, was mobbed on the streets for supposed complicity in the profanation, and hooted as a "Pig." The mosque has been closed and is closely guarded pending the arrival from Constantinople of officials of the government, who will make an investigation. The expedition worked for two years on a large scale, beginning at the village of Siloam, which lies at the southeast end of Jesusalem, on the southern slope of the Mount of Olives, overlooking the valley of Kedron and Pool of Siloam.

The explorers are credited with having excavated a passage from the Pool of Siloam toward a place where once stood Solomon's Temple, built in 1012, B.C. Twice pillaged and twice rebuilt and finally destroyed by Titus A.D. 70.

Through Train From Toronto to Coast

Toronto.—Toronto citizens will after June 4 be able to travel from this city direct to Vancouver by a through Canadian Pacific railway train. The C. P. R. has long had this service under consideration, as under former conditions citizens travelling to the coast over their lines had to make connections at Winnipeg with the Imperial Limited or the Pacific expresses from Montreal.

By the new arrangement local people will be able to go direct to the coast without change. Just how the train will be made up has not been decided as yet, but it will be fully up to the standard of the Imperial Limited.

It is probable that some of the luxurious new compartment sleeping cars and compartment library observation cars which the company are now building at their Angus shops, Montreal, will be included in the train.

Educators Touring Canada

Montreal.—P. Sharp, of St. Helen's Lancashire, speaking of the tour of Canada now being made by the English educationalists, including W. P. Donald, Barnsley; Yorkshire; J. E. Pickles, West Bromwich, and J. R. Johnson, Ealing, declared they were here to investigate the relation between the Canadian educational system and industries, not merely to study the system of education.

Asked for criticism of Canadian methods and systems, the speaker begged to be excused, saying, in effect, that they were here to learn, not to criticize.

The delegates have left Montreal for the west.

Strike Natural Gas at Aldersyde

Aldersyde.—That this vicinity is underlaid by gas has long been suspected, but it was not until recently that the fact was demonstrated beyond doubt.

While drilling a well on the farm of Dr. Noblems, one mile from the town of Aldersyde, and at a depth of 300 feet, and after passing through 200 feet of heavy blue clay, a strong flow of natural gas was struck. When ignited it blazed up several feet.

The owner of the property will have the well drilled deeper to find out whether it is merely a "pocket" or a permanent flow of gas.

King Highly Gratified

London.—King George has expressed himself as gratified with the resolutions adopted at the recent guild hall peace meeting. Through his secretary, in reply to the lord mayor's letter communicating to him the terms of the resolution adopted, the king writes: "His majesty is gratified to receive these records of opinions unanimously expressed upon a question of such supreme and far-reaching importance by an assemblage so representative of various lines of thought in our religious, political and social life."

Selkirk Fair Directors Want $2,500,000

Winnipeg, Man.—The centennial directors have decided to again send a delegation to Ottawa to get a final answer from Laurier in reply to the request for a two and a half million dollar grant to the 1914 fair.

HOUSE WILL NOW ADJOURN

FEDERAL HOUSE TO ADJOURN FROM MAY TO JULY

Decision Has Been Reached to Adjourn the House for a Couple of Months, After Disposing of the General Business—It is Said That the Opposition Will Agree to the Arrangement.

Ottawa.—The Liberals have decided that after disposing of the general business before the house, an adjournment will be taken for a couple of months. An effort will be made to adjourn on or before May 23, and to resume business on July 18th, which would mean an adjournment of exactly two months. It is expected that by May 23rd the sessional programme apart from the reciprocity agreement and perhaps a portion of the supply will be put through. In the case of items not voted in interim, a supply bill sufficient to cover a period of several months, will be voted.

The opposition, it is said, will undoubtedly agree to this arrangement. Some members on both sides of the house would have preferred prorogation and an extra session in July, because of the expense to which they will be put by being compelled to return to Ottawa in July. A prorogation, however, would be disadvantageous for the government because it would mean that a fresh start would have to be made on the reciprocity agreement. With an adjournment, consideration of the reciprocity agreement will be resumed just where it is left off.

The government in deciding to accept Mr. Borden's offer of an adjournment, was influenced by the fact that the United States senate is not likely to deal definitely with the reciprocity proposals until the end of June or early in July and that there is little prospect of headway being made here, until no doubt remains as to the action at Washington.

An adjournment likewise makes it possible for the parliamentary contingent to attend the coronation of King George and thus Canada will be adequately represented at the imperial conference and the coronation.

WILL GIVE $10,000 TO CONGRESS

But it Will Mean Much to the Whole of Southern Alberta

Lethbridge, Alta.—If Lethbridge secures the international dry farming congress in 1912, the Alberta government will grant $10,000 towards meeting the expenses due the big affair. This promise was made to W. A. Buchanan, M. P. P., and J. W. McNicol, chairman of the dry farming congress section of the Lethbridge board of trade, who waited upon the government at Edmonton recently.

It was pointed out that it would cost about $30,000 to handle the convention, and that 5,000 were likely to attend. Most of these people would be from the United States and foreign countries, and their visit to Alberta would do a great deal to give the province publicity, as the strangers could view it with their own eyes and return to their homes to spread broadcast the story of its great resources.

The government will arrange a special train for the accommodation of Alberta delegates to be sent to the convention at Colorado Springs this year. Salt Lake City is Lethbridge's competitor for the 1912 convention.

MANY NEW INDICTMENTS

Nineteen Indictments Found by the Grand Jury Against the McNamara Brothers

Los Angeles.—Twenty-one new indictments, according to reliable authority, were found by the Grand Jury, against the alleged dynamite conspirators, James and John J. McNamara and Orte McManigal.

Nineteen of the indictments, it is understood, are against the McNamara's alone and charge them with murder in connection with the blowing up of the Los Angeles Times' newspaper plant on October 1, when as a consequence twenty-one persons were killed. The other two are said to be against McManigal as principal, and the McNamara brothers as accomplices in the Llewellyn Iron Works explosion, Christmas Day, in which no one was killed.

Find Adoption of Home Rule Difficult

London.—The Times says that a difference of opinion exists in the cabinet concerning the Home Rule bill which has been some time in preparation. It is intended to establish a separate Irish exchequer. The Nationalists demand that England, at the outset, pay thereinto fifteen millions of pounds sterling as the nest egg, apart from the annual subsidy. This question is found difficult. There is also a difference of views as to the number of representatives to be retained at Westminster and as to the conditions of their retention.

Six Demonstration Farms for Alberta

Edmonton.—The announcement of the five demonstration farms to be established by the provincial government will be made before the premier leaves for the coronation. Location of the farms will be considered at a cabinet meeting. The selections have all been made, and it is understood that two will go to the south, which with the Medicine Hat farm will make three for the south, and three for the north. Innisfail, Olds and Vermilion are spoken of as the likely points in the north.

Peace Treaty to Be Ready Soon

Washington, D.C.—The draft of the Arbitration treaty between America and Great Britain has advanced so far toward completion that it will be ready for submission to the British government within two weeks. Details of the treaty are necessarily withheld from publication, and it is stated that nowhere has there occurred an accurate outline of the convention.

GREAT INFLUX OF SETTLERS

Vice-President Whyte Says 500,000 Settlers Will Come to Western Canada In 1911

Vancouver, B. C.—"One half million settlers will come into Western Canada this year and 200,000 of them will come from the United States," said William Whyte, vice-president of the C.P.R., who arrived here recently. He said in the near future elevators would be built in Vancouver, for from this port wheat would come from the prairies in increasing quantities to be shipped to the world's markets.

The feature of the C. P. R. organization most marked was the ready-made farm district in Alberta and he claimed there was a better demand for them than could be met.

The winter crop in Alberta, he stated, was assured. Additional labor in preparing the soil for seed, coupled with the great increase in acreage and the congenial weather conditions of winter and spring, should combine, he said, to produce a crop of almost inestimable value.

Mr. Whyte deprecated the flow of negro population from the south, declaring they were not the kind of people Canada wanted for they lacked energy enough for the proper development of the country.

He announced the company had made experiments which proved oil was superior fuel to coal and that gradually oil would be introduced on all the lines of the Canadian Pacific on the coast and the interior of British Columbia. The coast steamers will also burn oil, he added.

WESTERN MEN FOR BISLEY

Calgary Representatives Are Well Known Marksman—Been There Before

Calgary.—The three Calgary representatives on the Canadian Bisley team are men who have won prominence many times before with their marksmanship. C. M. Hodgson, now color-sergeant in the 103rd Calgary Rifles, came to this city from Edmonton only a few months ago. He was once on the South African Bisley team, and last year won twenty-fourth place at Ottawa.

Alex. Martin is an old Calgary resident. Once before he served on a Canadian Bisley team and last year he won 17th place in the D. R. A.

A. R. Carmichael was formerly a member of the R.N.W.M.P. When in that force he won the medal and badge for the grand aggregate in the Saskatchewan Provincial Rifle association for the matches in 1898-9 and 1900. In 1894 he won a silver badge in the Canadian Military Rifle league, and in 1895 he won a gold medal and badge and the Provincial Grand Aggregate. He took two D.R.A. silver medals and was in seventh place in that match last year, being only two points behind the leaders.

Special Train to Tour Manitoba

Winnipeg, Man.—The most important departure in the agricultural history of Manitoba, is announced, in the organization of an agricultural college special train to tour the province over the lines of the C. P. R.

Starting May 30, a similar tour over the lines of the Canadian Northern is likely to be announced in a few days. The work of the agricultural college is considered satisfactory, as far as it goes, but it reaches only the young men, while there are many farmers losing money and falling short of the possibilities of their farms by lack of scientific up-to-date knowledge of their work and these specials are to be equipped with cars for model cattle, horses, hogs, sheep and poultry lecture cars, and even kitchen gardening is to be provided for.

The first tour will last from May 30 to June 28.

New Record in Immigration

Montreal.—C. P. R. Officials stated that to date immigration to the Canadian west through Montreal and St. John had exceeded that of all previous years. During April over thirty thousand new settlers were carried west, and since the opening of navigation at Montreal the rush to the west has increased in volume.

Fifteen hundred and fifty new settlers arrived on the Allan liners Sardinian and Virginian alone last week. The C. P. R. officials also estimate that the average per capita wealth of the settlers during the last two months has been in the neighborhood of $400, and that altogether some $10,000,000 has been brought into the country by immigrants.

Disaster For The Airships

London.—The government has the worst of luck with its dirigible airships. The Lebaudy dirigible was damaged at Aldershot after a successful flight from Paris last summer, and was totally wrecked at Farnborough on its first trial trip. A great naval airship, the construction of which has been surrounded by secrecy, designed to take a spectacular part in the coronation naval review, was so badly damaged at Barrow recently that it cannot be taken out for months.

The Lebaudy collided with a clump of trees and is a mass of ruins. One of the crew of several was severely injured.

New Dairy Inspectors for Province

Edmonton.—Hon. Duncan Marshall has announced the appointment of the dairy inspectors under the new dairy act passed at the last session of the legislature.

The new inspectors are, H. E. Pearson of Red Deer, G. W. Scott of Innisfail, who have previously acted for the department in the capacity of dairy inspectors, and C. P. Marker, dairy commissioner who has also been appointed a dairy inspector. The other two inspectors will be under his direction.

The Colonies Can Come In

London.—Chancellor Lloyd-George, interviewed anent his insurance scheme for sickness and unemployment, says a special arrangement has been made enabling a mutual arrangement to be made between this country and the dominions which will give them all the advantages they are willing to concede us.

RAILWAYS MUST KEEP ORDER

Hon. G. P. Graham Has Bill To Give Government Power Over Lands

Ottawa, Ont.—When the house met recently Hon. Mr. Graham, minister of railways, explained the provisions of his bill, an act to amend the railway act. This is a somewhat lengthy piece of legislation, containing sixteen chief provisions. The most important and radical provision is one which provides that when a railway becomes dilapidated and unsafe for traffic, a government subsidy given that railway can be regarded as a lien on the road coming in even before a first mortgage, and the government can sell out the company under this provision, and put the road in safe traffic condition.

Mr. Graham explained that this revision might seldom if ever be exercised, but it was well to have some provision whereby the government could compel an unsafe road to put its right-of-way and rolling stock in proper condition.

To Mr. Northrup, Mr. Graham explained that this provision would be retroactive, and include all roads receiving government subsidies in the past as well as all still to receive subsidies.

Among other provisions were those providing that telephone, telegraph and express companies should report annually to the government the same as railways do, providing for the appointment for forest fire patrols and apparatus preventing the railways from setting forests on fire, providing that railway lands not used for actual railway purposes may be expropriated the same as any other lands, providing that railways under construction must be fenced unless excused by the railway commission, the present law being that railways need not fence unless the commission so orders, providing damages to owners of land by a highway down which a railway is allowed to run, providing for annual reports of accidents as well as reports at any other time the minister may request.

The act also contained a provision abolishing the law that cattle must not be allowed to run in unfenced land within half a mile of a railway. This was for the benefit of stockraisers in the west, where there are great stretches of unfenced lands. In Ontario the law is still desirable, Mr. Graham explained, but he looked to the local and provincial regulations to protect the farmers of that province.

Anglicans Will Discuss Ne Temere

Quebec.—Some interesting questions are to come before the coming session of the diocesan synod of the Anglican church, which meets here on June 8. Among the notices of motion given is one by the dean to the effect that a committee to consist of three clergymen and three laymen be appointed to prepare a memorial to be sent to the general synod of the Church of England in Canada at its next session, on the subject of mixed marriages and the grave danger which threatens the whole community if the civil courts are allowed to annul marriages which have been solemnized in strict accordance with the laws of the land.

R.N.W.M.P. Force for Coronation

Regina, Sask.—With the exception of the men from Edmonton and Battleford, all the members of the Royal Northwest Mounted police coronation contingent are now in barracks at Regina headquarters, where they will during the next fortnight be drilled preparatory to leaving on May 20 for England.

The contingent will consist of six officers and 75 men, and 80 horses, under the command of Commissioner Perry, G.M.G. The other officers are as follows:—Supt. Wilson, of Lethbridge; Inspector Wroughton, Dawson; Inspector Knight, Regina; Inspector Duffus, Calgary; Inspector Jennings, Regina.

Dilaz Announces His Resignation

Mexico City, Mexico.—General Porfirio Diaz has issued a mandate to the people of Mexico declaring his intention to resign the presidency as soon as peace is restored.

In this manner the president has acceded to the demands of Francisco I. Modero, jr., that he make an announcement of such intention.

As to when peace is actually restored, General Diaz reserves the right to be the judge.

In the words of the manifesto it will be "When my conscience dictates."

Jew May Rule Again in Egypt

London. — The Jewish Chronicle states that it is rumored that Sir Matthew Nathan will succeed Sir Eldon Gorst as British resident in Egypt.

"Should this report prove correct," says the journal, "it will be the second time in history, after a lapse of some 4,000 years, that a Jew will have taken the most prominent place in the government of Egypt."

Sir Matthew Nathan was formerly governor of Natal.

An Ostrich "Farm" for Wardner B.C.

Nelson, B.C.—Otto Beiker, of Hamburg, Germany, has purchased a block of land near Wardner, where he will start an ostrich farm. He has been engaged in ostrich farming in Africa, and after a thorough investigation of East Kootenay has decided that conditions are admirably adapted for ostrich raising. Ostrich ranches are successful in California, Arizona, Texas and Florida. The land near Wardner hos been purchased from the C. P. R.

Improving Roads in Northern Alberta

Edmonton.—John Stocks, deputy minister of public works, returned with J. K. Cornwall recently from an extensive trip to the Peace River over the new government trail from Edson. Mr. Stocks will make certain recommendations to the minister regarding the needs of the north country in the way of roads and bridges, and the improvement of the present government trails. The new Edson trail is now in good condition, and is being used by hundreds of settlers going north.

MAY NEGOTIATE WITH GERMANY

TEUTONS LOOKING FOR TARIFF AGREEMENT WITH CANADA

Newspapers of London Maintain that Germany Wants to Arrange Reciprocity Agreement with Canada, but German Papers Deny This—Further Stated That an Understanding Has Been Reached.

London.—The Daily Mail's. Berlin correspondent wires:

Four Berlin journals publish an identical communication assailing The Mail of publishing my recent statement that the German government has stretched out certain "feelers" in the direction of a tariff agreement with Canada. The statement they describe as "incorrect." They add: "The time for initiating reciprocity negotiations with Canada could not possibly be more inopportune. It is true that when the last tariff arrangement with the Dominion was effected in February, 1910, it was planned to renew the negotiations at no distant date for a definite treaty but it was understood by both sides that such negotiations could only begin after Canada had regulated her tariff relations with the United States. As The Mail has circulated these reports and as these from Ottawa emanate from English sources, it is plain that the only object is to interfere with and to disturb the development of the German-Canadian relations.

The Mail's Berlin correspondent also adds that all these assertions, however, cannot obliterate the fact that the last two weeks have witnessed a definite renewal of German activity in the direction of "approaching" Canada.

The Standard's Berlin correspondent wires that an understanding has been arrived at between Canada and Germany, and negotiations for a reciprocal commercial treaty shall take place after Canada's commercial relations with the United States have been regulated by the treaty now in sight. When the tariff war between Canada and Germany terminated last year, then both governments agreed that it was desirable to bring about a reciprocity commercial pact in the near future. At that time the Canadian and German governments concurred in the view that negotiations for a German-Canadian commercial treaty could not ensue until reciprocity had been established between Canada and the United States.

FEW WOMEN TO SEE CEREMONY

Lady Strathcona Will Be One of Those Admitted—Sir Charles Going

London.—Owing to the unprecedently large official delegations from the Dominions it has been decided that no peers' daughters can be admitted to the coronation solemnity in Westminster abbey, indeed very much disappointment is expressed in high places.

It was found that after places had been provided for Sir Wilfrid Laurier and other Dominion ministers, the parliamentary delegations, ecclesiastics, provincial premiers and public men and representatives, will be very limited.

Lady Strathcona is so much better in health that she expects to accompany Lord Strathcona to the abbey. Sir Charles Tupper has also accepted an invitation as privy-councillor, but Lady Tupper is not sufficiently robust in health to stand the strain of the trying ordeal.

The location of seats for Canadians outside the abbey, on one of the government coronation stands is not expected to be fixed for some time. The high commissioner has pressed in vain for definite information.

Lord Strathcona and H. C. Griffith, secretary of the Canadian government office, with a limited number of distinguished Canadians, now in London, will represent Canada at the unveiling of the Queen Victoria memorial in front of Buckingham palace by the king, on May 16, which the German emperor is coming to England especially to attend. Levee dress is to be worn, the occasion is to be one of great real ceremony.

Denies Reported Disagreement

Vancouver, B.C.—T. O. Holt, executive agent of the Canadian Northern Railway, has given an emphatic denial to a report to the effect that a disagreement threatening to suspend construction work on the B.C. section of the roads, exists between the provincial government and the railway company. Mr. Holt stated that the agreement between the two contracting parties was ratified by the provincial legislature, is part of the statute law of the province, and will be carried out to the letter. The best answer to the report was the calling for tenders for new construction work between Hope and Kamloops, a distance of 163 miles.

Fire Patrol Boat on Athabasca River

Edmonton.—A fire patrol boat is now being built at Prairie Creek, for patrolling the Athabasca river as far north as Mirror Landing, at the mouth of Lesser Slave river, according to G. H. Edgecombe, dominion government forester, just returned from Prairie creek.

The boat will be under J. W. MacLagan, chief forest ranger in Jasper park, who has also charge of the forest rangers in this part of Alberta. The boat will be equipped with a powerful engine enabling her to make way against strong currents and keep moving up and down the river to prevent fires being started by settlers and getting beyond their control.

Friction Between Japan and China

St. Petersburg.—The newspapers report fresh friction and state that Japan is about to present new demands to China with reference to free trade in Kwang Tung province and the transfer of the Dalny customs to Japan. In event of a refusal, Japan presents an ultimatum.

Be Careful In Building That Home

POOR LUMBER means a cold crude house. After the first year it gets that cheap, shabby look which makes it difficult to rent and difficult to sell. If you are building it to live in you want it a home that you will be proud to show your friends, and furthermore, you will want to avoid the big fuel bills always necessary where low grade lumber is used. We make a specialty of high-grade lumber and 'classy' material that you will want to use. We have built up the largest retail business in Western Canada by being very fussy as to grades and selling just a little bit better stuff than you can generally buy elsewhere at prices as low as those asked for the inferior kinds

If your contractor uses CROWN LUMBER it means that he is a man who wants the best of every thing. It is the best recommendation the man could have !

The Town Council

Decided to allow hitching posts to remain provided the merchants agree to replace the present ugly looking conveniences with posts of uniform height, have them painted green, protected with tin to prevent horses from dining off them while left for hours standing exposed to wind and weather, and to have bars of piping extended from one end to the other.

Accepted the resignation of first engineer McNeely and gave the mayor and chairman of water and light committees power to engage a successor.

Raised the salary of town superintendent John Miller from $75 to $80 a month.

Will try pacific means once more of getting Contractor Breckenridge to get a move on and fix the leaky water pipes. If it doesn't succeed this time the solicitor will write a letter designed to show the slow moving John where he gets off at.

Received a report from from John Miller on water mains extensions: passed accounts totalling about $2,600 of which $1,048.75 was merely an exchange from one side of the ledger to another as it was the amount due by the town to the lighting plant for current used. Of the $1,600 balance the largest item was for civic salaries totalling $591 and the next largest $205 paid for labor. All the other amounts were under the hundred mark with the exception of $105 paid for a motor.

The above was the work of the council at its last meeting in a nut shell. It was a meeting graced by the presence of all the members. There wasn't much talk on any subject except that never failing inspiration to oratory the hitching post problem. Chairman James of the local improvement committee brought in a report recommending that the hitching posts be allowed to ornament the streets. He confessed that in making such a recommendation he was doing the anaconda act as he had at the previous meeting strongly urged having the posts banished from the king's highway. He had in the interval however interviewed the merchants and found them almost unanimously opposed to doing away with the posts. He saw in the removal a possible offence to the farmers who might take revenge by going to Stavely, Granum, or one of the eastern towns for supplies. He would like to see the streets clear but in deference to public opinion was willing to suppress his own views in the matter and countenance the posts. He would however favor compelling the putting in of uniform posts and having them painted green (Irish colours) and with pipe extensions. The remainder of the council agreed with Mr. James except Councillor Hutton who wouldn't sanction the posts as they are contrary to civic by law and constitute a standing menace to safety on the streets and render the town liable for any damages which might be suffered. Town Solicitor Haslam concurred in Mr. Hutton's views as to the illegality of the posts and also as to the liability of the town for damages One councillor said the council were in the same position as the man hanging to the bear's tail. "It was hell to hang on but death to let go." However all voted for the report with the exception of Mr. Hutton and the posts remain. It is up to the merchants to co-operate by getting together and agreeing on uniform styles and trimming.

When the accounts were being passed P. E. Hood as a ratepayer asked that they be read in detail so that others might know who is getting the money. The mayor replied that the details were all attached to the report of the finance committee and if Mr. Hood wanted to read them he could do so. It would take too much time to read all the items in council. Mr. Simpson said that the details were all discussed and every item carefully investigated by the finance committee before the accounts were presented for payment.

Mr. Hood also asked for information as to the building by-law. Hip Lung intends building out to the street front and wants to have a brick finish. Mr. Hood wanted to know if veneer would do and was informed by the mayor that only solid brick would be allowed.

John Miller in his report on work done on water extensions reported that prior to the 14th of April the bulk of the work consisted of repair work digging up and repairing leaks, repairing hydrants, etc. He has kept accurate accounts of the cost of the work. Continuing he reported as follows. "I have been asked to give figures as to the cost of laying circulation pipe from First Avenue south to Centre Avenue, from First Avenue north to Second Avenue north from Third Avenue north to Fourth Avenue north, with the addition of approximately 335 feet of 4 inch main from Mr. Annable's house to the road allowance and 200 feet from road allowance to Mr. Hood's on Fourth Avenue north. It will be necessary to lay 25 feet of 4 inch main at First Avenue south and also 25 feet at Centre Avenue in order to bring the present mains in line with the street so as to make connections with the proposed circulation pipe. On the east side of the railway it will be necessary to lay about 176 feet of 4 inch main to connect with the pipe at present laid to Mr. Lindsays, and the main at present being laid on the street east of the Western Canada lumber yards from Mr. Haig's corner. He estimated the cost of doing all this work at 12½ cents per foot, the back filling at 5 cents a foot, and about 2 cents a foot for laying pipe. He recommended the use of scrapers for back filling believing it would cut the cost in two. The report was received and a report as to the actual money needed will be presented as it will have to be raised by debentures
